

PO Box 2002 Seattle, Washington (estipation) of 3206) 241 8779

November 29, 1984

Mr. Dave Borkowski Fred S. James & Co. 1700 Fourth & Blanchard Bldg. Seattle, WA 98121

Re: Environmental Impairment Liability

Dear Dave:

Please find enclosed forms. I used 11/1/83 to 10/31/84 as "last year." I only had access to three month's worth of Lynden Transport freight bills so I annualized what I had.

I listed formaldehyde on Lynden Transport's page since I forgot to ask you about it. No other significant amounts of hazardous material were transported by them. The other freight bills that were designated as containing hazardous materials consisted of batteries, explosives, paint (in cans), empty cylinders that had last contained varios gases, and compressed gases. These items were on mixed bills of ladings.

Alaska Marine Lines and Lynden Air Freight both responded that they moved little or no hazardous materials.

Please let me know if you need any additional information

Sincerely,

LYNDEN INCORPORATED

Mona Johnson Financial Analyst

of payers, and

Re: Request for Updated EPA WAD Numbers

Dear Sirs:

Enclosed with this letter are the new Form 2's for the following firms: Lynden Air Freight, Inc., Lynden Transport, Inc. and Alaska Marine Lines, Inc.

Please note that Lynden Air Freight, Inc is applying for an update to its address under WAD059320788 as currently filed with the State. There is also a change of contact person and the name has been shortened to Lynden Air Freight, Inc. from Lynden Air Freight Forwarder, Inc.

Alaska Marine Lines, Inc.'s application is being sent in to reflect a name change due to a parent company reorganization and a location change. Their number on file is WAD991281809. Please note that the contact person for this installation and company is Robert Miller.

Lynden Transport, Inc., current number WAD002799260, is requesting a change of installation address. Their old address was 5615 West Marginal Way, and they have now moved their terminal to the Kent address shown in item 5. Mr. Miller is also the contact person for this installation, as he is Director of Equipment for Lynden Incorporated and coordinates the hazardous waste training and activies for the subsidiaries.

If you have further questions, please contact me, the submitter of these requests, at 206/241-5474. Also, please send the initial EPA Form 8700-12A's to my attention so that I might distribute the originals and make photocopies for my files.

Very truly yours, LYNDEN INCORPORATED

ACKNOWLEDGEMENT OF NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.
